

CUTAWAY ELECTRIC ASSIST POWER STEERING MODULE

DESCRIPTION

The EC-140-15, Cutaway Electric Assist Power Steering Module, allows the student to understand the basics of an electric assist power steering as used in today's vehicles. It has two handles representing the steering wheel and steering column. All components are original parts and the cutaway trainer is designed to:

- Allows student to visualize changes power steering motor output under different conditions;
- Manually applied resistance; and,
- Safe and easy to use.
